

SOUTH CAROLINA'S  
FEDERATION OF CLUBS

(By Associated Press.)  
Orangeburg, S. C., May 5.—There was a large and representative attendance this morning at the opening of the ninth annual convention of the State Federation of Women's clubs in the academy of music. Mayor Doyle and Mrs. H. C. Wannamaker welcomed the visitors for whom felicitous response was made by Mrs. R. D. Wright of Newberry. Mrs. A. F. McRae of Greenwood, president of the federation, read her annual address and reports were presented by other officers and by committees. Luncheon was served at 12:30 o'clock by Paul McMichael chapter, United Daughters of the Confederacy, and at 2 o'clock the convention resumed for business. An elaborate musical programme has been arranged for this evening. The visitors are loud in their praise of the elaborate arrangements made for their entertainment.

Press Dispatch: Four sons at once. St. Paul, Oct. 30, 1906. A special from Mondovi says: "Mrs. J. S. Silversmith gave birth to four boys." She is evidently a great friend of Hollister's Rocky Mountain Tea, 35 cents, Tea or Tablets—C. R. Renfro.

## BAKING HAM AT HOME.

Cooking in the Oven Gives Meat a Superior Flavor.

With the spring sewing on hand, the housewife will do well to have cold meats, salads, etc., prepared in quantities, so that she can continue her work in the sewing-rooms without constant interruption to prepare food. Here is a very excellent recipe for baking ham in a way that will make it retain its flavor, and furnish a delicious cold dish for many days.

A ham cooked in the oven has a superior flavor to one which is boiled in the usual manner. Soak the ham and after wiping it dry cover it entirely with a thick paste made of flour and water; then wrap it up in greased paper, tying it in several places to prevent it from slipping off. Put the ham on a baking tin and cook it in a well-heated oven, basting it frequently over the paper with warm dripping; if the paper should get all burnt place another thick sheet over it. A fairly small ham should be selected for cooking in the oven and for one weighing five pounds four hours should be allowed. When it is done remove the paper and paste, then strip off the rind and as soon as the ham is sufficiently cool brush it over with several coats of glaze and put away to get thoroughly cold.

Rubber tire driving wagons, good goods, stylish, up to date, \$75.00. A full line of new vehicles, the best in the market. J. S. Lyon, 120-122-124 North Division street.

When your back aches it is almost invariably an indication that something is wrong with your kidneys. Weak, diseased kidneys frequently cause a break down of the entire system. DeWitt's Kidney and Bladder Pills afford prompt relief for weak kidneys, backache, inflammation of the bladder and all urinary troubles. Sold by C. R. Renfro.

Coffee? Tea? Sure! We can save you money. In fact, we can save you 25 per cent. Try us. National Coffee & Tea Co.

## A SQUARE DEAL

Is assured you when you buy one of Dr. Pierce's Family Medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formula are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native, medicinal roots found growing in our American forests. While potent to cure they are perfectly harmless even to the most delicate women and children.

Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine of proper strength. This agent possesses intrinsic medicinal properties of its own, being a most valuable anti-septic and anti-ferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, "heartburn," foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures even in the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on-coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate hang-on, or chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

If the sweet taste of the "Discovery," caused by the glycerine, is disliked, a few drops of lemon juice, orange or lime juice, added to each dose will make it agreeable and pleasant and will not in the slightest interfere with its beneficial effects.

It's an insult to your intelligence for a dealer to endeavor to palm off upon you some nostrum of unknown composition in place of Dr. Pierce's world-famed medicines which are OF KNOWN COMPOSITION. Most dealers recommend Dr. Pierce's medicines because they know what they are made of and that the ingredients employed are among the most valuable that a medicine for like purposes can be made of. The same is true of leading physicians who do not hesitate to recommend them, since they know exactly what they contain and that their ingredients are the very best known to medical science for the cure of the several diseases for which these medicines are recommended.

With tricky dealers it is different. Something else that pays them a little greater profit will be urged upon you as "just as good," or even better. You can hardly afford to accept a substitute of unknown composition and without any particular record of cures in place of Dr. Pierce's medicines which are OF KNOWN COMPOSITION and have a record of forty years of cures behind them. You know what you want and it is the dealer's business to supply that want. Insist upon it.

DESCENDANT OF PRESIDENT  
JOHNSON WEDS.

(By Associated Press.)  
Richmond, Va., May 5.—The wedding of Miss Martha Landstreet, the only great granddaughter of President Andrew Johnson, and Robert Willenham of this city took place today. The bride is the granddaughter of Mrs. Martha Patterson, daughter of President Johnson and mistress of the White House during his administration.

## WARNED BY BEETLE'S KNOCKS.

It Meant Death According to an Ancient Superstition.

A curious superstition has caused—or at any rate accelerated—the death of Mrs. Bellamy, the wife of a Hunt-Ingdonshire ten farmer, living at Ramsey, says the Manchester Chronicle. Hearing in the stillness of the night rattlings in an old family deed box, the woman, who had been slightly indisposed for a day or two, was terrified, as her mother-in-law had said that when a "knocking" came from the box a death in the house followed. She aroused her husband, crying, "It's knocking! You know that's the warning!" The farmer says that he then heard tapping in the box and asked: "I know what it means; my wife was to be taken from me!" adding: "The message which the box gave brought such a dread on my wife that she took to her bed and gradually pined away." Asked if he thought the rattling brought about her end, he replied: "There is no doubt about it," and they were heard, he said, when his father died. Now it turns out that the rattlings were made by the common wood-boring insect known as the death watch beetle—a name it derives from the superstition attaching to it—which is to be found in old houses and ancient furniture. It taps with its head against the wood in signalling to its mate, and the sharp sound it makes in the silence of the night has none of the significance with which superstition has surrounded it.

## GAVE THEM FAIR WARNING.

Congregation Appraised of the "Ottomatic C'lection Box."

A negro preacher, whose supply of hominy and bacon was running low, decided to take radical steps to impress upon his flock the necessity for contributing liberally to the church exchequer, says a writer in Human Life. Accordingly, at the close of the sermon he made an impressive pause, and then proceeded as follows:

"I hab found it necessary, on account ob de astrignency ob de hard times an' de general deficiency ob de circulatin' medium in connection wid dis church, to interduce ma new ottomatic c'lection box. It is so arranged dat a half dollar or quater falls on a red plush cushion without noise; a nickel will ring a small bell distinctively heard by de congregation, an' a suspensib' button, ma follow-mawtels, will flash ob a pistol, so you will know yoselves accordin'. Let de c'lection now proceed, will I takes off ma hat an' gibs out a hymn."

## Self-Developing Plates.

The amateur photographer slid the milk-colored plate into a tray and poured over it a pint of water. Magically then in the mysterious ruddy light fine black lines began to appear. They ran this way and that; they crossed, deepened, spread; soon the plate had turned from white to black. "It has developed itself, you see," said the photographer. "But how? You put nothing but water on it." "I'll tell you. Just as the surface of this plate is coated, so there is a coating on the back—a transparent coating of extremely soluble developer. You need only pour on water, when the developing chemicals at once dissolve and in that dissolving solution the image begins immediately to appear. A good idea, isn't it? No, these self-developing plates are not yet on the market. They are still a little imperfect. Soon, though, they will be as perfect and as common as self-raising flour."

## Utilization of Waste.

The United States Steel corporation is installing 12 monster engines at its rolls plants, the unique feature about them being that they do not require oil, coke, coal, wood or ordinary gas for fuel. They are to be operated solely with the gas which is generated in the company's blast furnaces during the process of steel manufacture. This gas has heretofore gone to waste, but hereafter it will be made to turn all the wheels. For a steel plant to be able to save the cost of its fuel is taking a very big stride toward economy. To be able to abolish smoke at the same time will add to its popularity in communities where the smoke-belching stacks have smothered the air with blackness. One more real triumph for the American restless brain.

## Tainted Money in England.

The man who is charitable, or who joins heartily in the steady warfare now waging against poverty, is the man who is good—that is for the moment the decision of modern opinion. He may sacrifice the nobler objects of life to a rushing chase of fortune, may even pursue business methods which have in them an appreciable taint of cruelty, but if he is "benevolent" in the sense of readiness to make large charitable gifts, the world condones his action, or even regards him with admiration. Spectator, London.

## MEETING OF IOWA DOCTORS.

Iowa City, Ia., May 5.—The thirty-eighth annual convention of the Balneomani association of Iowa began here today and will continue over tomorrow. The chief speakers are to be Dr. Benjamin F. Bailey of Lincoln, Neb., and Dr. Royal B. Copeland of Ann Arbor, Mich.
